PlutoVault MSP Partner Program — One-Pager

Add AI-powered DCIM to your stack. Earn 15% recurring, for life.

PlutoVault is multi-tenant, AI-powered **Data Center Infrastructure Management (DCIM)** built for managed service providers. Refer your colocation, edge, and infrastructure clients — we handle billing, support, and SOC 2 paperwork; you earn a flat **15% recurring commission** on every account, for the life of the subscription, plus volume rebates as you grow.

Why MSPs win with PlutoVault

- **White-label per client.** Every client environment runs under your brand — your logo, accent color, app name, and custom domain (CNAME). Your clients see your DCIM, not ours.
- **~4-minute provisioning.** A new client tenant — isolated database, app pod, custom subdomain — spins up automatically in about four minutes. Add clients as fast as you close.
- **AI operator built in.** Clients ask plain-English questions and get root-cause answers across power, racks, and IPAM. A premium differentiator you can charge for.
- **Full DCIM.** Rack elevations, device inventory, power draw, capacity planning, and IP address management for on-prem and hybrid estates.
- **True tenant isolation.** Each client gets its own Kubernetes namespace and dedicated PostgreSQL database — no shared data, no noisy neighbors.
- **SOC 2 due-diligence ready.** A live Trust Center with 27 automated controls, SSO, and audit logs clears your clients' security reviews fast.

The economics

- **15% recurring commission** on every referred client's monthly subscription — for the life of the account, not just the first month.
- **Quarterly volume rebate** added on top: +3% at 5–9 active clients, +5% at 10–19, +8% at 20+.
- **No tiers, no minimums, no cost to join.**

Example: 12 clients on the Pro plan (\$299/mo) = \$3,588 MRR. At 15% + 5% rebate = 20% →

****\$718/month**** recurring to you.

How it works

1. ****Apply**** at app.plutovault.cloud/partners — quick approval.
2. ****Register deals**** in your partner portal to protect each opportunity for 90 days.
3. ****Refer & onboard**** clients via your referral link; their white-labeled environment provisions in ~4 minutes.
4. ****Get paid**** every month your clients stay active. We bill; you collect.
